

## A bad Case of Love

### **Refrain:**

Got a bad case of love  
Got a bad case of love  
Got a bad case of love  
Got a bad case of love  
Got a bad case of love  
People my heart is full of misery

### **1. Strophe:**

I live in loneliness, never get no rest  
Went to see a love doctor, to get out of this mess  
Took a look at me, before he cast his spell  
Shook his head and then began to yell  
You gotta bad case of love  
Got a bad case of love  
Got a bad case of love  
People my heart is full of misery

### **2. Strophe:**

I said, "Doctor, doctor, please do something for me  
I feel like a man going through the third degree  
Can't sleep at night, can't eat a bit"  
Since you been gone nothin' ever goes right  
You gotta bad case of love  
Got a bad case of love  
Got a bad case of love  
People my heart is full of misery

### **3. Strophe:**

He said son I know, just how you feel  
You love your baby and you always will  
But your mind is short, your pulse aweak  
It won't be long before you're 6 feet deep  
You gotta bad case of love  
Got a bad case of love  
Got a bad case of love  
People my heart is full of misery
