

I got the Blues

1. Strophe:

I got the Blues
-cause my baby is gone
took all my heart and money
left me for someone's arms

2. Strophe:

She wrecked my brand new car
She refined my diamond ring
She done poured the *sawt* out of the shaker
She didn't leave me with a doggone thing

3. Strophe:

Now the Blues has come to you
And got many shapes of forms
May come to you in the shape of a woman
Just like the one that left me alone
I got the Blues and i'm not ashamed to say
I've been tryin' to shake that Blues each and every day

Reprise: don't you know *ij*
