

Prison of love

1. Strophe:

You used to be my good thing
But i abused your gentle ways
Left you alone, when you needed me
Now you left me with a price to pay

Refrain:

Now you're gone
And it's my turn to suffer
Locked in a prison of love
Locked up in a prison of love

2. Strophe:

Now i've allways said that a man should be free
How could lovin' be a sin
But i found out when you turned and left your key
You might as well had locked me in

Refrain:

3. Strophe:

Sometimes a man finds love like a prison
Maybe it makes him a little blind
Lookin' for something but he just can't see
That sweet little girl by his side
